

Application Interaction Flows

Gesture-First User Experience

🎯 Key Interaction Flows

- 1 **Category Selection:** User selects vocabulary category using gestures
- 2 **Mode Selection:** Choose between Learn Mode or Test Mode
- 3 **Learn Mode Navigation:** Swipe left/right gestures to browse vocabulary cards
- 4 **Test Mode Interaction:** Finger-up gesture to select multiple-choice answers
- 5 **Result Visualization:** View test scores and retry or exit navigation

✨ **Gesture-First Design:** All interactions are optimized to work without keyboard or mouse, providing an intuitive, touch-based learning experience.
